PROFESSIONAL SUMMARY

Results-oriented IT Professional with over 18 years of leadership experience across Government, NGO, and Corporate sectors especially in Patna, Bihar with different department of Government of Bihar. Recently I have served as Sr. Project Consultant for the **Integrated Child Development Services (ICDS)**, Social Welfare Department, Bihar, overseeing large-scale digital transformation and IT operations. Expert in leveraging **AI/ML**, **Cloud Computing**, and **Advanced Analytics** to drive evidence-based policy decisions. Proven track record in developing secure MIS, fraud detection systems, and high-impact dashboards for healthcare, elections, and child welfare.

CORE COMPETENCIES

- **Data Systems & Innovation:** Design and developed **AI Chatbot**, and MIS platforms using Python, SQL, and .NET
- **Advanced Analytics & Evidence:** Developing real-time dashboards (Power BI) and predictive modeling for stakeholder performance tracking.
- **AI & Technology:** Implementation of AI-assisted risk profiling and Chatbot frameworks (IIM Bodh Gaya Certified).
- **Government & UN Collaboration:** Extensive experience working with GIZ, ADRI, and various Bihar Govt. departments (Health, Social Welfare, Election Commission).
- **Cybersecurity & Compliance:** Expertise in data privacy, risk assessment, and implementing secure encryption protocols.

PROFESSIONAL EXPERIENCE

Sr. Project Consultant | PI Systems (ICDS Project, Bihar) Patna, Bihar | Mar 2024 – Feb 2026

- Head the IT Project Management Unit (PMU) for **Integrated Child Development Services (ICDS)** under the Social Welfare Department (SWD), Bihar.
- Lead a 26-member team to drive the digital transformation of social welfare initiatives, ensuring robust data systems for public service delivery.
- Provide high-level technical consultancy to government stakeholders to enhance the reach of child development programs across the state.

Team Lead cum IT Specialist | ADRI (Dept. of Health, Bihar) Bihar, India | Dec 2019 – Mar 2024

- Spearheaded IT solutions for the AB-PMJAY scheme, utilizing PostgreSQL, Python, and Power BI.
- Reduced suspected fraud cases by **22%** through predictive data modeling and pattern analysis.
- Optimized stakeholder performance tracking through advanced dashboards and quantitative analysis to drive informed policy decisions.

Database Administrator | GIZ GmbH (Deputed to BSSS, Dept. of Health) Bihar, **GoB** | Apr 2018 – Dec 2019

- Played a pivotal role in the strategic execution of the Ayushman Bharat (AB-PMJAY) launch in Bihar.
- Integrated Public Distribution System (PDS) data with the PMJAY database and developed monitoring dashboards for state-level decision-making.

IT Manager Neelkantha Solutions Pvt. Ltd| Bihar, IN | May 2017 – Mar 2018

- Managed end-to-end IT infrastructure, including AWS cloud migration, reducing operational costs by 25%.
- Enforced IT compliance policies, conducted annual audits, and implemented firewall/anti-virus updates.
- Coordinated with vendors to deploy MIS applications, ensuring 99% uptime for client systems.

Programmer & DBA Cyber Crime Cell, Govt. of Bihar| Dec 2016 – May 2017

- Developed secure MIS and mobile apps for cybercrime reporting, integrating encryption protocols to safeguard sensitive data.
- Trained police personnel on cyber hygiene, reducing breach incidents by 18% within 6 months.

Sr. Software Developer A.R.Software| Bihar, IN | Jan 2015 – Dec 2016

- My role at A.R.software, I was responsible for the entire development lifecycle. My dual focus on robust database management and direct client engagement allowed me to deliver tailored technical solutions that met specific stakeholder needs.

SLA Programmer | Office of Chief Electoral Officer, Bihar, GoB | Nov 2007 – Dec 2014

- Led the critical data transition from ISCII to Unicode and managed the EVM Tracking System.
- Developed comprehensive portals for electoral roll computerization with robust MIS reporting tools.
- Developed Electoral Photo Identity card Issuer software
- I engineered a comprehensive portal for the computerization of teacher and graduate electoral rolls, featuring robust MIS reporting tools.

- As a technical lead, I regularly participated in high-level meetings and specialized training sessions at the Election Commission of India (ECI), subsequently cascading that knowledge by training of Deputy Election Officers and IT Managers across various districts. My role also encompassed the management of ECI-mandated software, the EVM Tracking System, and technical coordination for SVEEP initiatives.

EDUCATION & CERTIFICATIONS
